

iPET系列高性能瓶坯注塑系统

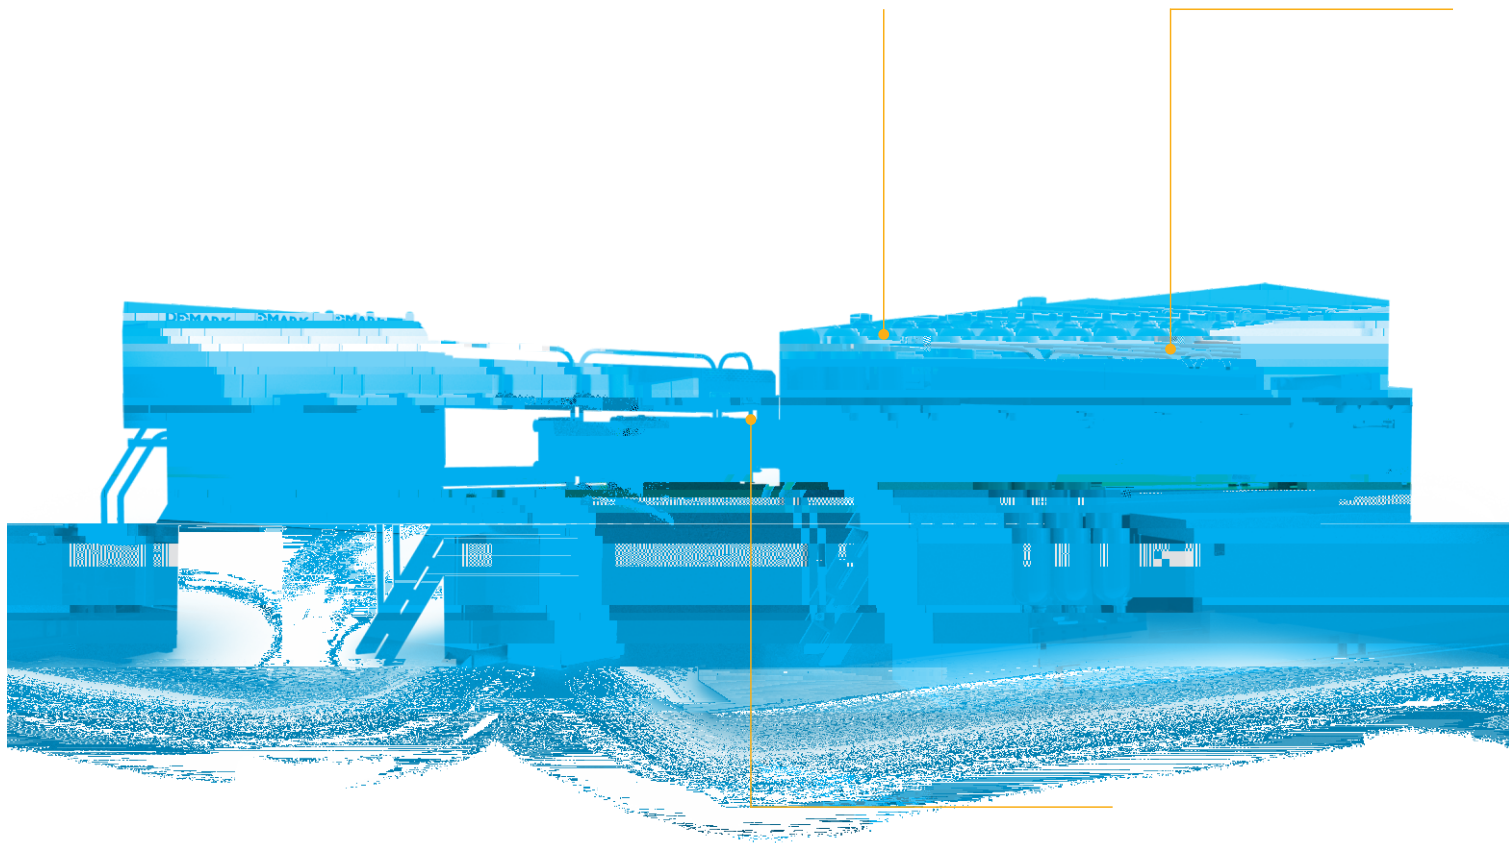

DEMARK

德玛克iPET高速瓶坯生产系统为您带来与欧洲设备同源的系统配置，但是投资却比之前更低。

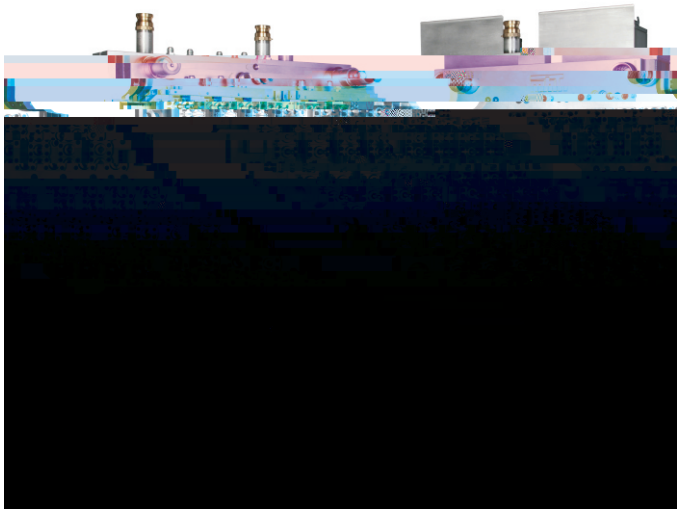

可靠的锁模

MHT PREFORM INJECTION MOLDS FROM GERMANY(OPTIONAL)

MHT

()

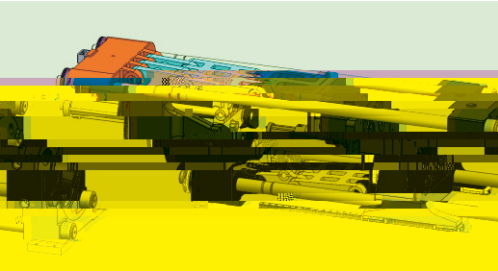

▲ MHT
MHT domestic only equipment cooperation factory

- High surface quality
 - Dimensional stability
 - Consistent Weight
 - No flash on split lines
 - Low acetaldehyde (AA) levels
- (AA)

RELIABLE CLAMPING

- PET
- THK

- With the optimized PET special hinge parameters, the opening and closing die is fast and stable
- The second board and the pull rod are completely disengaged, and the second board is supported by THK linear guide, which has small resistance and saves energy

THK

- The second board is supported by THK linear guide, which has small resistance and saves energy

- In the current European popular, the first structure of the second board, after the installation of the mold, the center of gravity in the supporting plane, the second board running smoothly.
- The box type formwork structure is adopted, and the deformation of the template is small
